

Tyler will be able to see both coins.

Because the light from the coins will refract in the water and the glass will reflect it in a different angle.

I can see both coins

Yes

The pool looks shallow because of the light refracting as it leaves the body

Megan, the light isn't making the rocks look bigger, the light is reflecting them in the body of water

Because it can show what the light is doing with lines that in real life we can't see
