## 1 - Warmer

- The weather is very tentative, it is sunny one moment then snowing the next.
- I would say a typical British summer would be sunny with highs of 20 degrees and lows of 12 degrees.

## 2 - Behind the headlines

- Because the weather has an extreme change to it.
- Global warming is a climate change thing and this uses that but changes it to weird because it is not making the planet warmer, but weirder instead.
